

For My Gluten Free Missionary

Adriana Reeve

Preface

Our gluten free journey began in 2013 when my oldest son was about 7 years old and I took him to a well check up. The doctor told me that he had hardly grown in the last year (he was the shortest child in his class and his younger brother was taller than him at this point). The doctor told me that it was nothing to worry about and that when he hit puberty he would grow. I was worried and didn't feel settled about the doctor's response.

In 2015 my 4th son (3 years old) began waking up at night, complaining of his legs hurting every few hours. Other health concerns began to show up as well: struggling to breathe at night (Asthma-like symptoms), legs and hands hurting, scratching his legs until he bled (eczema), etc... One night he was having such a hard time breathing we had to take him to the ER. He was diagnosed with Asthma and we began doing breathing treatments soon after. I never felt good about any of these solutions and I began to ask God for answers.

In 2016 my oldest son (now 10 years old) was still the shortest in his class. At this time he was also complaining about diarrhea and he hated bread (perhaps because he knew how it made him feel). When I took him to his 10 year old well check up, he told the doctor his stomach hurt when he went to the bathroom (something he had never mentioned to me before). When they measured him, they told us he had hardly grown that year and was definitely not growing like my other children were. This time I asked the Doctor for answers (something other than puberty). Even though the doctor was reluctant to allow it, I asked for my son to be tested. I didn't know what he needed to be tested for but I knew something was not right. When the test results came back, the doctor told me that my son had Celiac Disease. I had no idea what that was at this point but I began to research it. Right away, I knew that my younger son had the same thing.

Our entire family was tested except for my husband and sure enough, my 4th son was also diagnosed with Celiac Disease. Something that I was not expecting was my diagnosis. I also had Celiac. I had no idea I had anything. I had always struggled with anxiety, fatigue, headaches and they had gotten worse after my 5th baby. After my 4th and 5th babies I also struggled with IBS and assumed it was caused by my pregnancies.

To be able to truly diagnosis our boys, the Doctor told us that our boys needed to have an intestinal endoscopy, a small surgery where a camera goes down their throat to take pictures of their intestines. The pictures showed the damage that had been caused because of gluten. The picture of my oldest son's small intestine showed that the villi that lined his small intestine was sorely damaged to the point that he hardly had any. Because the villi aid in absorbing nutrients, my son was not receiving the nutrients he was needing.

Once the doctor told me that the only effective treatment for Celiac Disease was a strict lifelong gluten-free diet, I was depressed. I felt overwhelmed by the thought of having to change what we ate and watch everything we put into our mouths. I had no idea where to start and I felt alone. I prayed a lot.

After reading numerous books and talking to many people I realized that our gut health had everything to do with our Celiac diagnosis. I learned that we needed to change our eating habits more than just taking gluten out of our diets. We needed to also lessen the amount of sugar we ate, eat more vegetables, include bone marrow broth in our diets, and watch our blood sugar by eating proteins combined with healthy carbohydrates.

I know that everyone's journey is individual and life is not one size fits all. I also know that after making these dietary changes, we noticed big changes in our family. We call it a miracle. I had more energy, my headaches went away (as long as I stayed away from gluten), and I felt mentally healthier. My oldest son grew 4 inches in one year and is still growing! My 4th son sleeps through the night, no longer has Asthma and his eczema has gone away. And something that I was not expecting is that we don't get sick as often as we used to. I haven't taken a child to the doctor's office for an infection since 2016. I don't call that a coincidence. The journey is not over and we are still learning how to improve our gut health. We still enjoy treats like everyone else but I know that the changes we have made to our diets has improved our overall health.

I decided to create this cookbook for my oldest son (and hopefully my other children as well) who will one

day serve a mission for the Church of Jesus Christ of Latter Day Saints. I hope it will be a valuable tool he can turn to as he learns to cook for himself and others. This cookbook has come from years of researching recipes, collecting ones that even my husband (not gluten free) likes, and ones that are healthier or can be modified to include healthier options. I hope it can be a help for many others who are going through a gluten free journey at this time.

Breads

Banana Bread (sugar free)

Ingredients

- 2 cups gluten free flour recipe (see pg.
- 2 tsp. xanthum gum
- 4-5 very ripe bananas, mashed (1½ cups)
- ½ cup maple syrup

- ½ teaspoon vanilla
- 2 teaspoon baking powder
- 1 teaspoon baking soda
- ¼ teaspoon salt
- ½-1 cup chocolate chips (optional)

Instructions

1. Preheat oven to 350 degrees F (175 degrees C). Lightly grease a 9x5 inch loaf pan, set aside.
2. In a large bowl, combine flour, baking soda, baking powder, and salt, set aside. In a separate bowl, cream together butter and maple syrup. Stir in eggs, milk, vanilla, and mashed bananas until well blended. Stir banana mixture and chocolate chips into flour mixture; stir just to moisten. Pour batter into prepared loaf pan.
3. Bake in preheated oven for 50 to 55 minutes, until a toothpick inserted into center of the loaf comes out clean. Let bread cool in pan for at least minutes, then turn out onto a wire rack. Slice and serve warm!

Blender Zucchini Bread

Ingredients

- 1 cup neutral oil such as avocado or canola
- 3 large eggs
- 1 T vanilla extract
- About 3 cups largely chopped zucchini
- 2 cups sugar
- 3 cups flour mix
- 2 tsp Xanthan Gum (omit if flour mix already contains xanthan)
- 1 tsp salt
- 1 tsp Baking Powder
- 2 tsp Baking Soda
- 1 1/2 tsp cinnamon

Chocolate Zucchini Bread

- 2-4 T cocoa powder
- 1 1/2 cups mini chocolate chips
- additional 1/2 tsp baking soda

Instructions

1. Blend oil, eggs, vanilla and 2 1/2 cups zucchini together in a blender until you have 4 cups mixture. Add more zucchini if needed to reach the 4 cups.
2. Add remaining ingredients and blend until smooth.
3. Spray loaf pans (8 mini or 2 regular, or any combination) fairly heavily with cooking spray, or grease generously with oil.
4. Pour batter into pans.
5. Preheat oven to 350 (letting batter sit while you preheat oven eliminates any gritty texture).
6. Bake large loaves for 35-40 minutes, mini loaves 17-22 minutes, until toothpick inserted in center comes out clean. Be careful not to over bake, as they could become dry.
7. Let cool in pans for 10 minutes before removing to cooling rack.
8. Store in plastic bags in fridge up to 7 days, counter up to 4. or wrap in foil and place in freezer bag and freeze. Thaw at room temperature, in the fridge, or in 325 degree oven until warm.

Bread Machine Rolls

Ingredients

- 1 c. water
- 1/4 c almond milk (or rice or coconut milk)
- 1 egg
- 1 t. apple cider vinegar
- 4 T olive oil
- 4 T honey
- 1 t Salt
- 2 c. GF flour
- 1 c. tapioca flour
- 1/4 c. Potato starch
- 1 t. psyllium husk
- 2 t. SAF yeast
- 1 t. xanthan gum

Instructions

1. Put all ingredients in the bread maker.
2. Choose the dough setting (it takes about 1.5 hours).
3. Leave it rising in the bread maker for 1 hour.
4. Use two spoons to put the dough into a 12-cup muffin pan (no liners).
5. Bake for 20 minutes at 350 degrees. Let cool. Use a plastic knife to remove the rolls. Yum!

Buttermilk biscuits

Ingredients

- 2 cups gluten-free flour blend (see notes)
- 1 teaspoon xanthan gum (omit if your flour blend contains it)
- 1 teaspoon (6 g) fine sea salt
- 1 tablespoon (12 g) baking powder
- ½ teaspoon (3 g) baking soda
- 6 tablespoons (87 g) unsalted butter, cubed and very cold
- ¾ cup (188 ml) buttermilk, cold + 1 tablespoon, divided

Instructions

1. Preheat oven to 425 degrees and grease a baking sheet or line it with a silicone baking mat or parchment paper.
2. Add the gluten-free flour, xanthan gum, salt, baking powder, and baking soda to a large bowl and whisk together.
3. Add the cubed butter and cut in with a pastry cutter or two forks until it resembles coarse crumbs.
4. Stir in ¾ cup buttermilk and mix until just combined.
5. Turn the dough out onto a floured surface and pat into a rectangle. Fold the rectangle into 3rds and turn the dough a half turn. Then flatten into a rectangle until the dough is about a ½-¾ inch thick.
6. Cut the dough with a 2 ½ inch biscuit cutter and place the biscuits on the prepared baking sheet, the edges of the biscuits should be touching.
7. Re-roll the dough as needed (by stacking the scraps and flattening). If using a 2-inch biscuit cutter there will be about 12 biscuits total.
8. Refrigerate the biscuits at least 30 minutes to ensure that the butter stays nice and cold. This is especially important if your house/kitchen is warm and humid.
9. Brush the tops of the biscuits with the remaining 1 tablespoon of buttermilk then bake for 12-15 minutes or until the biscuits are browned and baked through.

The Most Like Wheat Rolls Rolls

3. Mix on medium speed 3 minutes.
4. Spray 8" or 9" round cake pan or pie plate with cooking spray. Using a 2" scoop or 1/3 cup measuring cup, scoop dough into 9 mounds in the pan. I place one mound in middle, then scoop 8 mounds of dough side by side all the way around the pan.
5. Dip your fingertips into warm water and use to smooth out the tops of the rolls, continuing to wet fingers as needed.
6. Cover with a dry towel and let rise in a warm place 45 minutes to 1 hour.
7. During the last few minutes that the rolls are rising, preheat oven to 375°.
8. Bake in 375° oven for 20-25 minutes. Tops should be golden brown and if you measure temperature of dough, it should measure 200°.
9. Brush rolls with additional 1/2-1 Tablespoon of melted butter.

Breakfast

Apple Cider Donuts

Ingredients

Donuts

- 1 1/2 cups (210 g) all purpose gluten free flour (I used Better Batter)
- 1/2 teaspoon xanthan gum (omit if your blend already contains it)
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon baking soda
- 1/4 teaspoon kosher salt
- 1/4 teaspoon cream of tartar
- 1 teaspoon ground cinnamon
- 1/4 teaspoon freshly grated nutmeg
- 3/4 cup (150 g) granulated sugar
- 6 tablespoons (84 g) unsalted butter, at room temperature
- 2 eggs (100 g, weighed out of shell) at room temperature, beaten
- 3/4 cup (6 fluid ounces) apple cider

Topping

- 1/3 cup (67 g) granulated sugar
- 1 teaspoon ground cinnamon

Instructions

1. Preheat your oven to 325°F. Grease a standard donut pan and set it aside. See the post for a discussion of donut pans.
2. In a large bowl, place the flour, xanthan gum, baking powder, baking soda, salt, cream of tartar, 1 teaspoon ground cinnamon, nutmeg, and 3/4 cup granulated sugar, and whisk to combine well. Create a well in the center of the flour mixture, and add the butter, eggs, and cider, and mix to combine. The batter will be very soft.
3. Transfer the batter to a piping bag fitted with a plain tip or to a squeeze bottle. Squeeze the batter into the prepared doughnut wells until they are each about 3/4 of the way full. Shake the pan back and forth horizontally until the batter is in an even layer in each well. Place in the center of the preheated oven and bake until the tops of the donuts spring back when pressed gently (about 12 minutes). The underside will be browned, but the tops will still be relatively pale. Remove the pan from the oven and allow the donuts to cool for about 3 minutes, or until they are no longer too hot to touch.
4. While the donuts cool slightly, place the cinnamon sugar topping ingredients into a small bowl. Gently remove the slightly cooled (but still warm) donuts from the doughnut pan with your fingertips and turn them around in the cinnamon sugar until they are well-coated on all sides. Place the finished donuts on a clean sheet of parchment paper. Serve immediately, or at least within a day or two stored uncovered at room temperature. Freeze any remaining leftovers in a sealed, freezer-safe container.

Cinnamon Rolls

Ingredients

Dough

- 2/3 cup milk
- 1 tablespoon butter
- 1 packet (7 g) yeast
- 1/4 cup granulated sugar
- 1/2 cup (83 g) potato starch
- 3/4 cup (80 g) brown rice flour (or Gluten Free Flour recipe)
- 1/4 cup (34 g) tapioca starch plus more for flouring your surface
- 1/2 teaspoon baking soda
- 1 1/2 teaspoon xanthan gum
- 2 1/2 teaspoon baking powder
- 1/2 teaspoon salt
- 1 large egg
- 1/4 cup olive oil
- 1/2 teaspoon vanilla
- good quality plastic wrap for rolling out (and up!) the dough

Filling

- 1/3 cup butter, softened
- 1/2 cup brown sugar
- 1 tablespoon cinnamon

Frosting

- 3 tablespoons butter, softened
- 2 tablespoons cream cheese, softened
- 3/4 cup powdered sugar
- 1/2 teaspoon vanilla
- dash of salt

Instructions

1. Preheat oven to 350 degrees. Grease and lightly flour a pie plate.

Dough

1. Combine yeast and sugar in large mixing bowl.
2. Microwave milk and 1 tablespoon butter to approximately 110-115 degrees. Whisk into yeast mixture and set aside to proof.
3. Meanwhile in small bowl whisk together potato starch, brown rice flour, tapioca starch, baking soda, xanthan gum, baking powder, and 1/2 teaspoon salt.
4. Once yeast is proofed add in egg, oil, and 1/2 teaspoon vanilla. Mix for a moment and then slowly add in the flour mixture. Turn the mixer up to medium-high and beat for 1 1/2 minutes - beating long enough is essential, GF flours are "thirsty," the dough will thicken & lose its stickiness as you beat it.
5. Roll out the dough: this is a sticky dough that you'll want to roll out to approximately a 13" x 10" rectangle. What I have found works best is covering my work surface with a good quality plastic wrap and then a light layer of tapioca starch. I place my dough in the center and cover with a bit more tapioca starch and another sheet (or two) of plastic wrap. Roll out to the needed size and then carefully peel off the top layer of plastic wrap.

6. Using a knife or spatula gently spread the cup softened butter over the dough evenly leaving ½” space around the edges.

Filling

1. In a small bowl combine brown sugar & cinnamon. Sprinkle evenly over dough.
2. To roll your dough: start on one of the shorter sides and gently begin rolling your dough into a log form. Use the plastic wrap to help you “lift and roll” the dough as you go along. Try to make it a nice tight roll, however do not try to unroll it and re-do it. You’ll end up with a sticky mess.
3. Sprinkle lightly with tapioca starch again. Dip a sharp knife into tapioca starch then cut the rolls into 8 pieces.
4. Place the rolls, cut side down, in the prepared pie plate. Cover with plastic wrap and a towel, place in a warm spot, and let them rise for 15 minutes.
5. Bake 14-16 minutes until tops are golden brown.

Icing

1. Meanwhile, in mixing bowl, beat 3 tablespoons softened butter, cream cheese, and powdered sugar until smooth. Beat in vanilla and a dash of salt.
2. Drizzle over the tops of cinnamon rolls as soon as they come out of the oven.

Notes

Night before preparation: Once the rolls are in the pie plate, cover with plastic wrap and place in the fridge. In the morning set them out for at least 25 minutes before baking.

Granola Bars (chocolate chip)

Servings: 27 bars

Ingredients

- ½ cup coconut oil
- ¾ cup honey
- ¼ teaspoon salt
- 1 ½ teaspoons vanilla extract
- 4 cups old fashioned oats
- 1 ½ cup brown rice crisp cereal
- ½ cup mini chocolate chips

Instructions

1. Preheat oven to 350 degrees F. Line a 13x9-inch baking dish with two pieces of parchment paper, perpendicular to each other. Let each piece of parchment overhang on two opposite sides of the pan.
2. Place coconut oil, honey and salt in a small saucepan. Heat over low heat, stirring, until the mixture comes to a low boil. Continue to let it bubble as you stir it for 1-2 minutes. Remove from heat and stir in the vanilla. Let the mixture cool for 2-3 minutes.
3. Meanwhile, in a large bowl, stir together the oats and brown rice crisp cereal.
4. Pour the coconut oil and honey mixture over the oats and cereal in the bowl and stir until well combined. Stir in about 2/3 of the chocolate chips.
5. Transfer the mixture to the prepared baking dish. Lay a piece of parchment across the top and use a rubber spatula and your hand to press it very firmly into the pan. Be sure to press the mixture down firmly to make sure that the bars will hold together when you cut them.
6. Sprinkle on the remaining chocolate chips and gently press them into the top of the bars.
7. Bake for 15 minutes. Let cool and then chill in the refrigerator for at least an hour before cutting into bars.
8. Store granola bars wrapped airtight in the refrigerator for 1-2 weeks (we never have any left after 1 week!) or the freezer for up to 3 months.

- 2 C. raw almonds
- 1/2 C. Crasins
- 1 tsp. cinnamon

Instructions

1. Mix all ingredients except crasins. Stir in and coat thoroughly with:

2. Spread mixture on greased cookie sheet or parchment paper-lined cookie sheet.
3. Bake at 325 degrees for 23-24 minutes.
4. Stir half way through or so for even color(I also add in the crasins halfway through so they are not so hard).

7. Repeat with remaining batter and serve warm with your preferred toppings.

Vanilla Cake Donuts

Prep time: 10 minutes

Cook time: >12 minutes

Yield: 12 standard-size donuts

Ingredients

Donuts

- 1 1/2 cups (210 g) all purpose gluten free flour (I used Better Batter)
- 3/4 teaspoon xanthan gum (omit if your blend already contains it)
- 1/4 cup (36 g) cornstarch
- 1 1/2 teaspoons baking powder
- 1/4 teaspoon baking soda
- 1/4 teaspoon kosher salt
- 1/2 teaspoon freshly grated nutmeg
- 3/4 cup (150 g) granulated sugar
- 8 tablespoons (112 g) unsalted butter, melted and cooled
- 2 eggs (100 g, weighed out of shell) at room temperature, beaten
- 3/4 cup (193 g) plain yogurt, at room temperature
- 1 teaspoon vanilla bean paste (or 1 1/2 teaspoons pure vanilla extract)

Glaze (optional)

- 1 cup (115 g) confectioners' sugar
- 2 to 4 teaspoons milk or buttermilk

Sugar coating (optional)

- 4 tablespoons (56 g) unsalted butter, melted
- 1/2 cup (100 g) granulated sugar

Instructions

1. Preheat your oven to 350°F. Grease a standard-size donut pan and set it aside.
2. In a large bowl, place the flour, xanthan gum, cornstarch, baking powder, baking soda, kosher salt, nutmeg, and sugar, and whisk to combine well. Create a well in the center of the dry ingredients, add the butter, eggs, yogurt, and vanilla, and mix until just combined. Fill the prepared wells of the donut pan until nearly full. For perfectly shaped donuts, place the donut batter into a piping bag fitted with a large, open tip, and pipe the batter into the wells. Wet the pointer finger of your dominant hand and run it along the center of each well of the donut pan to force the batter toward the perimeter of each well. This will help the donut hole from closing during baking.
3. Place in the center of the preheated oven and bake for about 12 minutes or until the donuts are set and just lightly browned. Remove from the oven, and allow the donuts to cool in the pan for 5 minutes.
4. If you're planning to use the optional glaze, transfer the donuts to a wire rack to cool completely. In a small bowl, place the confectioners' sugar and 2 teaspoons of milk, and mix well. Add more milk by the half-teaspoon until you have a smooth but thickly pourable glaze. Working quickly, dip the top of each cooled donut in the glaze, turn back and forth a bit to coat well, invert the donut so the glaze is facing upward, and place on a flat surface to set.
5. If you're using the optional sugar-coating, invert the donuts onto a wire rack while they're still warm. Dip each donut carefully in the melted butter and then press into the granulated sugar before replacing on the wire rack. The sugar coating will harden as it cools.

Veggie omelets

Ingredients

- 1/2 Tbsp. butter
- 2 Tbsp. onion chopped
- 1/4 c. mushrooms chopped
- 1/2 c. fresh spinach
- 3 cherry tomatoes sliced in half
- shredded cheddar cheese to taste
- 2 eggs
- 2 Tbsp. vegetable or canola oil
- 2 Tbsp. water or milk
- salt and pepper to taste
- avocado (optional)
- salsa (optional)
- guacamole (optional)

Instructions

1. Prepare your fillings. Heat butter in a small frying pan over medium heat. Add onions and mushrooms and saute until onions become clear. Add spinach and tomatoes. When spinach has wilted, remove from heat and cover with lid or foil to keep warm.
2. Crack the eggs into a mixing bowl and whisk until eggs become light yellow in color. Set aside. Pour oil into an 8" pan (you don't want to do a smaller pan or the eggs won't cook as well) and swirl around until pan is evenly coated with oil. Put pan on the stove over medium-low heat.
3. While oil is heating quickly add water, salt, and pepper to the eggs and beat vigorously until the eggs become light and airy. When the oil becomes wavy and hot, slowly pour the eggs into the pan. Once the eggs are in the pan, do not stir! Let them just sit and start to bubble up a little bit.
4. When the bottom of the eggs begin to set a little bit, use heat-resistant rubber spatula to gently push one edge of the egg into the center of the pan, while tilting the pan to allow the still liquid egg to flow in underneath. Repeat with the other edges, until there's no liquid left.
5. Your eggs should now resemble a bright yellow pancake, which should easily slide around on the nonstick surface. If it sticks at all, loosen it with your spatula.
6. Now gently flip the egg pancake over, using your spatula to ease it over if necessary. Cook for another few seconds, or until there is no uncooked egg left. DO NOT OVERCOOK!
7. Stir cheese and toppings together and spoon down center of the omelet in a line (adding more cheese to the top if you like it extra cheesy). Quickly fold one side of the omelet over the toppings and then do the same with the other side (as if you were folding a piece of paper into thirds).. you may also just fold the omelet straight over (as if folding a piece of paper in half). You may keep the omelet in the pan until the cheese is melted (flipping over if necessary).. just be sure you don't overcook the eggs—you don't want them to be crispy and brown!
8. Top with additional toppings, hollandaise sauce ([click here](#)), salsa, sour cream.. etc...

Waffles

Ingredients

- 2½ c. gluten-free flour blend
- 1 Tbs. baking powder
- 3 Tbs. coconut sugar or maple syrup
- ¾ tsp. xanthan gum
- 2 eggs
- 3 Tbs. oil
- 2 c. milk (dairy or non-dairy)

Instructions

1. Mix together the dry ingredients.
2. Make a “well” in the middle of the dry ingredients and add the remaining ingredients to the well.
3. Mix together until it is all combined.
4. Cook according to your waffle iron instructions.

Notes

My waffles took about 4 minutes to cook, and I used 1/3-1/2 cup of batter per waffle, but your waffle iron may be different. A good guideline is to wait until the waffle stops steaming. I’ve found that gluten-free waffles take a little longer to cook than traditional waffles.

Waffles-best gluten free yet

Ingredients

- 1 3/4 cup GF flour
- 2 teaspoons baking powder
- 1/2 teaspoon salt
- 1/2 teaspoon cinnamon optional
- 1/4 cup of maple syrup or coconut sugar
- 3/4 cup dairy free milk, room temperature
- 5 tablespoons coconut oil (1/4 cup + 1 tablespoon)
- 2 eggs, room temperature
- 1 teaspoon vanilla extract

Instructions

1. Whisk together the dry ingredients in a large mixing bowl (chickpea flour, baking powder, cinnamon and salt) until no lumps remain.
2. In another bowl whisk together the milk, oil, vanilla and eggs.
3. Pour the wet ingredients into the dry and mix with a spoon until just combined. The batter will be a little lumpy and that's fine. Let the batter rest for about 10 minutes.
4. While the batter is resting take this time to prep your waffle iron according to its individual settings. If your iron allows you to choose the temperature set it to medium-high. Grease your iron plates if needed.
5. When your ready, stir the batter once more and then scoop out 1/4 cup of batter and then pour onto the centre of your heated waffle iron. Close the lid and let cook until golden and crispy.
6. Transfer the cooked waffles to a wire cooling rack to cool and rest as you finish cooking the rest of your waffles. Make sure you don't stack them on top of each other or they will lose their crispiness.
7. Repeat with remaining batter and serve warm with your preferred toppings.

Notes

- Make it dairy/nut free: You can use any milk of your choice here (dairy free or not)
- Make it egg free: You can actually leave out the eggs altogether here. I found that these came out crispier without eggs but you do need to be a little more gentle with removing the cooked waffles from the iron and make sure you grease the iron well.
- Freeze it: Allow the waffles to cool completely then wrap up/seal in a freezer safe bag. You can just pop these in a toaster to heat through when you're ready.
- Instead of chickpea flour you can also use regular gluten free all purpose flour or certified gluten free oat flour.

Grilled Stuffed Mushrooms

Ingredients

- 2 large Costco size containers of fresh mushrooms I used white
- 1 block of lite cream cheese
- 1 6 pack of Italian Sausage
- Grated Parmesan optional
- Salt & Pepper to taste

Instructions

1. Prepare mushrooms by washing & breaking out the stems (Note....use the stems in pasta sauce or salad if you want).
2. Squeeze sausage out of casings & cook over medium high heat until browned and cooked through. I didn't drain mine because turkey sausage has little to drain. If using pork sausage, I would drain it. Add lite cream cheese and stir until melted.
3. Stuff mushrooms with cream cheese and sausage mixture. Sprinkle with parm, salt & pepper. Note that getting the parmesan to stick can be very fiddly (especially if you may have had a margarita before making these) so I skipped it after the first 3 or 4.
4. Preheat your bbq grill to around 375 go 400F. Place mushrooms on a griddle (we used our camping one) stuffing side up. Put in your bbq and close the lid. Keep an eye on them. The mushrooms are done when the tops are starting to brown and you can see a bit of liquid from the mushrooms. Don't over cook b/c they will get mushy.

Mashed Potatoes

2. Peel and cut the potatoes into chunks. Bring a large pot of water to a simmer and add the potatoes. Bring to a boil and cook until fork tender, 20 to 25 minutes.
3. Drain the potatoes in a large colander. Place them back into the dry pot and put the pot on the stove. Mash the potatoes over low heat, allowing all the steam to escape before adding in all the other ingredients.
4. Turn off the heat and add 1 1/2 sticks butter, the cream cheese, heavy cream, seasoned salt, kosher salt and pepper. Mash to combine.
5. Spread the potatoes in the prepared baking dish. Throw pats of the remaining butter over the top of the potatoes and bake until the butter is melted and the potatoes are warmed through, 20 to 30 minutes.

Patacones or tostones

Ingredients

- 2 green plantains use about 1 plantain per person for an appetizer and 1 plantain per 2 people for a side dish – you can get about 8-10 patacones per plantain
- Oil for frying use an oil that won't burn at high temperatures (peanut oil or avocado oil)
- Salt to taste

Instructions

1. Peel the plantains, the easiest way to peel a green plantain is to make the lengthwise cut on one of the angles, the cut should be skin deep without touching the actual flesh of the plantain, then use the knife to raise the skin and peel it off.
2. Cut the plantains into thick slices, you can make straight cuts or slightly diagonal cuts.
3. Heat the oil over medium high heat in a frying pan – use enough oil to almost cover the plantain slices - or a deep fryer, temperature should be about 350 F, fry the plantains until they start to get yellow, but not golden.
4. Remove the plantains and place on paper towels to drain the oil.
5. Use the bottom of a glass (or small bowl or a wood pestle) to smash and flatten the plantains, do this gently to keep the slices from breaking, a few cracks is ok as long as the whole slice remains in one piece. It is best to do this when they are still warm.
6. Sprinkle the plantain slices with salt and other seasonings (if using the raw garlic rub it on the slices).
7. Reheat the oil, temperature should be about 375 F and fry the plantains until golden on each side, about 1-2 minutes per side.
8. Remove from the oil, drain again on paper towels, and add additional seasoning if needed.

Potato & Broccoli Medallions

- 2 green onions, finely chopped
- 1 egg

Instructions

1. Preheat oven to 375°F.
2. Line a large cookie sheet with parchment paper.
3. Peel and chop the potatoes into 1/2" chunks, drop into a medium-sized saucepan that has a tight fitting lid and has been filled with cold water. Set over medium-high heat, covered, bring up to a boil and simmer for 10-12 minutes, until fork tender. Remove potatoes from boiling water to a large mixing bowl to cool slightly.
4. Rinse out the potato pot, fill with cold water and broccoli florets. Cover and bring up to a boil, remove from heat and steam until fork tender, about 3-4 minutes. Drain broccoli and move to a cutting board, dice finely when cool enough to handle.
5. Meanwhile, pour the cream over the potatoes, season with salt and pepper. Coarsely mash the potatoes with a potato masher. Stir in the broccoli, cheese, green onion, and egg.
6. Place a 3" diameter biscuit cutter on the parchment-lined cookie sheet. Scoop a heaping tablespoon into the cutter and gently flatten with a spoon. Remove the cutter and continue with the mixture, until it is all gone.
7. Bake for 20-25 minutes until golden brown on top and bottom. Let cool slightly and serve. Excellent served with mayo seasoned with a bit of chipotle chili powder.

5. Slice potatoes in half and scoop out most of the potato flesh, leaving a thin layer close to the skin and set aside. {You can use the creamy flesh to make mashed potatoes.}
6. Place potatoes skin side down on baking sheet, and using a pastry brush brush oil from the pan onto flesh. Sprinkle potatoes with remaining paprika.
7. Return to oven on broil for 5 minutes.

Quinoa

Ingredients

- 1 cup quinoa, rinsed if necessary
- 2 cups liquid (water, chicken stock (I use chicken stock))

2. Place quinoa, your liquid of choice, and salt into the rice cooker.
3. I use the quick cook setting on my Zojirushi Umami rice cooker, and then press the start button to start the cooking process.
4. The rice cooker will beep after about 30 minutes, and your quinoa will be ready to serve.
5. For a standard rice cooker without all of the bells and whistles, one cooking cycle should be enough to do it. Note that you should let the quinoa set for about 4-5 minutes after it's done cooking and then fluff it.

Roasted Potatoes

Ingredients

- Kosher salt
- 1/2 teaspoon (4g) baking soda
- 4 pounds (about 2kg) russet or Yukon Gold potatoes, peeled and cut into quarters, sixths, or eighths, depending on size (see note)
- 5 tablespoons (75ml) extra-virgin olive oil, duck fat, goose fat, or beef fat
- Small handful picked rosemary leaves, finely chopped
- 3 medium cloves garlic, minced
- Freshly ground black pepper
- Small handful fresh parsley leaves, minced## Instructions

Instructions

1. Adjust oven rack to center position and preheat oven to 450°F/230°C (or 400°F/200°C if using convection). Heat 2 quarts (2L) water in a large pot over high heat until boiling. Add 2 tablespoons kosher salt (about 1 ounce; 25g), baking soda, and potatoes and stir. Return to a boil, reduce to a simmer, and cook until a knife meets little resistance when inserted into a potato chunk, about 10 minutes after returning to a boil.
2. Meanwhile, combine olive oil, duck fat, or beef fat with rosemary, garlic, and a few grinds of black pepper in a small saucepan and heat over medium heat. Cook, stirring and shaking pan constantly, until garlic just begins to turn golden, about 3 minutes. Immediately strain oil through a fine-mesh strainer set in a large bowl. Set garlic/rosemary mixture aside and reserve separately.
3. When potatoes are cooked, drain carefully and let them rest in the pot for about 30 seconds to allow excess moisture to evaporate. Transfer to bowl with infused oil, season to taste with a little more salt and pepper, and toss to coat, shaking bowl roughly, until a thick layer of mashed potato-like paste has built up on the potato chunks.
4. Transfer potatoes to a large rimmed baking sheet and separate them, spreading them out evenly. Transfer to oven and roast, without moving, for 20 minutes. Using a thin, flexible metal spatula to release any stuck potatoes, shake pan and turn potatoes. Continue roasting until potatoes are deep brown and crisp all over, turning and shaking them a few times during cooking, 30 to 40 minutes longer.
5. Transfer potatoes to a large bowl and add garlic/rosemary mixture and minced parsley. Toss to coat and season with more salt and pepper to taste. Serve immediately.

3. Once the beans are done cooking, remove the bay leaves. Stir in salt. Enjoy warm! Use a slotted spoon to drain off extra liquid and serve beans over rice, quinoa or a salad. Top with avocado, extra salsa or shredded cheese.
4. If storing leftovers, allow beans to cool completely before transferring beans and some of the cooking liquid to an air-tight container. Store beans in fridge for up to 5 days or in freezer for up to a month.

Cover the pot if you want to help the veggies steam to cook.

Bone Broth

Ingredients

- 2 pounds (or more) of bones from a healthy source

Optional:

- 1 onion
- 2 carrots (roughly chopped and not peeled)
- 2 stalks of celery (roughly chopped)
- 2 tablespoons Apple Cider Vinegar
- 1 bunch of parsley
- 1 tablespoon or more of sea salt
- 1 teaspoon peppercorns
- Additional herbs or spices to taste
- Can also add 2 cloves of garlic for the last 30 minutes of cooking

Instructions

1. Aim for 2 pounds of bones per gallon of water.
2. If you are using raw bones, especially beef bones, it improves flavor to roast them in the oven first. Place them in a roasting pan and roast for 30 minutes at 350.
3. Place the bones in a large crock pot. Pour (filtered) water over the bones and add the vinegar. Let sit for 20-30 minutes in the cool water. The acid helps make the nutrients in the bones more available.
4. Rough chop and add the vegetables (except the parsley and garlic, if using) to the pot. Add any salt, pepper, spices, or herbs, if using.
5. Let cook on low- 24 hours for chicken bones and 48 hours for beef.
6. During the first few hours of simmering, you'll need to remove the impurities that float to the surface. A frothy/foamy layer will form and it can be easily scooped off with a big spoon. Throw this part away. I typically check it every 20 minutes for the first 2 hours to remove this.
7. During the last 30 minutes, add the garlic and parsley, if using.
8. Remove from heat and let cool slightly. Strain using a fine metal strainer to remove all the bits of bone and vegetable.
9. When cool enough, store in a gallon size glass jar in the fridge for up to 5 days, or freeze for later use.

Mini Pumpkin Pies or 2 Pumpkin Pies

Ingredients

- 2 Pie crusts from my 2 pie crust recipe (Apple pie recipe)
- 1 (15 oz) can pureed pumpkin
- 2 eggs
- 1 (14 oz) can sweetened condensed milk
- 1 Tbsp pumpkin pie spice
- 1/4 tsp table salt
- Plus whipped cream for topping

Instructions

1. Preheat your oven to 425°F. Spray a 12-cup muffin tin with non-stick spray.
2. Cut as many 5 inch circles (either using a round cutter or a bowl or glass) as you can out of each pie crust, and fit them into each tin, crimping over the sides as necessary. Reroll the scraps if needed to get 12 crusts.
3. In a bowl or a 4 cup glass measuring cup (I used the measuring cup so I could pour it into each muffin tin directly without dirtying another bowl), whisk together the pumpkin, pumpkin pie spice, sweetened condensed milk, eggs and salt.
3. Pour the pumpkin mixture into each crust. Make sure not to fill completely to the top so that the pumpkin spills over the sides of the crust (if you've used a 5-inch cutter, you shouldn't have that problem since the crust will be as tall as the muffin tin).
5. Bake at 425 for 15 minutes, then lower the heat to 350 and bake another 20-25 minutes until a knife inserted in the middle comes out clean.
6. Let the pies cool in the pan for at least 30 minutes, then pop them out. Top with whipped cream and a sprinkle of cinnamon if desired.

- 1 1/2 cups Palm Coconut sugar (or brown sugar if you'd like)
- 1/2 teaspoon salt
- 2 teaspoons baking soda
- 1 teaspoon vanilla extract
- 1 cup creamy peanut butter
- 4 Tbs. butter, softened
- 4 1/2 cups (18 ounces) gluten free old fashion oats (blend in blender a little)
- 1 cup (6 ounces) milk chocolate, semisweet, or bittersweet chocolate chips

Instructions

1. Preheat the oven to 350 degrees F. Line cookie sheets with parchment paper, liners or lightly grease with cooking spray.
2. In a large mixing bowl with a handheld electric mixer (or in a stand mixer fitted with the paddle attachment), add the eggs and sugar. Mix well.
3. Add the salt, baking soda, vanilla, peanut butter and butter. Mix until creamy and well combined, 1-2 minutes.
4. Stir in the oatmeal, and chocolate chips until combined. The dough will be sticky.
5. Scoop the dough into heaping tablespoon-sized balls (see note above) and place about 2 inches apart on the cookie sheets. If you want the cookies thinner, flatten them slightly with the palm of your hand.
6. Bake the cookies for 8-10 minutes. Don't overbake - the cookies should just be set and very lightly golden around the edges.
7. Let the cookies sit for 1-2 minutes on the cookie sheet before transferring to a cooling rack to cool completely. Store in an airtight container for 2 days (the baked cookies freeze well, also).

No Flour Monster Cookie Bars

Ingredients

- 1/2 cup (1 stick) salted butter, softened
- 1/2 cup packed brown sugar (can substitute brown sugar with coconut palm sugar)
- 1 cup coconut palm sugar
- 1 1/2 cups creamy peanut butter (NOT all-natural)
- 3 large eggs
- 1 tablespoon vanilla extract
- 1 1/2 cups quick oats
- 3 cups old-fashioned oats
- 1 teaspoon baking soda
- 1 1/2 cups mini m&m's
- 1 cup miniature chocolate chips

Instructions

1. Heat oven to 350 degrees. Prepare a cookie sheet by lining with parchment paper, silpat liner, or spraying with cooking spray.
2. In a large bowl, or bowl of stand mixer with the paddle attachment, combine butter, brown sugar, palm sugar, and peanut butter. Mix until fluffy and pale in color. About 1-2 minutes.
3. Add the eggs and vanilla extract. Mix together.
4. Add in the oats and baking soda. Mix until combined.
5. Add in the m&m's and chocolate chips (reserve some for top of bars if wanted). Stir together with a wooden spoon or spatula until combined.
6. Dump dough onto the cookie sheet and spread out. This will take several minutes, but it can be done. It helps if you dollop spoonful's of dough all over the cookie sheet (rather than one pile in the middle) and then spread it out. Sprinkle the reserved m&m's and chocolate chips on top (if wanted). Press down slightly into dough.
7. Bake for 20 minutes. The edges will be lightly browned and the middle will still look pale and under-done, but it will finish baking as it cools. Let cool for at least an hour so the bars can firm up and come together. You do not want to over-bake these!

Nutella Blondies

Serves: 18

Ingredients

- Cooking spray or parchment paper
- 1/2 cup (1 stick) butter, melted
- 1/4 cup brown sugar, packed (can substitute brown sugar for coconut palm sugar)
- 1/4 cup coconut palm sugar
- 1 egg, lightly beaten
- 1 teaspoon of vanilla
- 1 cup of gluten-free flour blend (I used my own but King Arthur's Multi-purpose or Bob's Red Mill 1 to 1 could work too)

- 1/8 teaspoon of baking soda
- Pinch of salt
- 1/2 cup Nutella, divided

2. Add the flour, baking soda, baking powder, and salt. Stir together until just incorporated and spread evenly into brownie pan. Dollop nutella in lines across the short end of the pan. Using a butter knife or spatula, spread evenly and then across the long way to make a wavy pattern.

Pie Crust

Ingredients

One-Crust Pie (9 in.)

- 1 cup GF flour(with xanthum gum)
- 1/2 tsp. Salt
- 1/3 cup plus 1 Tbs shortening
- 2-3 Tbs cold water

Two-Crust Pie (9 in.)

- 2 cups GF flour (with xanthum gum)
- 1 tsp. Salt
- 2/3 Cup plus 2 Tbs shortening
- 4-5 Tbs cold water

Instructions

1. Mix flour and salt in a medium bowl. Cut in shortening, using pastry blender or crisscrossing 2 knives, until particles are size of small peas. Sprinkle with cold water, 1 Tbs at a time, tossing with fork until all the flour is moistened and pastry almost leaves the side of the bowl (1-2 tsp. Of water can be added if needed).
2. Gather pastry into a ball. Shape into flattened round on lightly floured surface. (For Two-crust pie, divide pastry in half and shape into 2 rounds.)You can wrap up dough in plastic wrap and refrigerate about 30 min to firm up the shortening slightly, which helps make the baked pastry more flaky.
3. Roll pastry in lightly floured surface, using floured pin, into circle 2 inches larger than upside-down pie plate. Fold pastry into fourths and place in pie plate; or roll pastry loosely around rolling pin and transfer to pie plate. Unfold or unroll pastry and ease onto plate, pressing firmly against bottom and side and being careful not to stretch pastry
4. For one-crust: To prevent pie crust from becoming soggy, partially bake pastry before adding filling. Heat oven to 425. Carefully line pastry with a double thickness of aluminum foil, gently pressing foil to bottom and side of pastry. Let foil extend over edge to prevent excessive browning. Bake 10 min and then carefully remove foil. Fill the pie and bake as directed in pie recipe.
5. For two-crust: Fill pie crust and place 2nd crust over the top (adding butter before if recipe calls for it). You can do fun things for the edge or make a lattice by cutting 1/2in strips and weaving them on the top. Bake as directed on the pie recipe.

Snickerdoodles

Ingredients

- 1/2 cup butter (1 stick), softened (or powdered butter)
- 1/2 cup granulated sugar
- 1/3 cup brown sugar
- 1 egg (or powdered egg)
- 1/2 teaspoon vanilla

4. Preheat oven to 300 degrees while you let the dough rest for 30 to 60 minutes in the refrigerator.
5. In a small bowl, combine the sugar with the cinnamon for the topping. 6. Take about 2 1/2 tablespoons of the dough and roll it into a ball. Roll this dough in the cinnamon/sugar mixture and press it onto an ungreased cookie sheet. Repeat for the remaining cookies.
6. Bake the cookies for 12 to 14 minutes and no more. The cookies may seem undercooked, but will continue to develop after they are removed from the oven. When the cookies have cooled they should be soft and chewy in the middle. Makes 16 to 18 cookies. I don't always refrigerate the dough.

Sugar Cookies

Ingredients

Cookies

- 2 cups (280 g) all-purpose gluten-free flour (I like “Grandpa’s Kitchen”)
- 1 teaspoon xanthan gum (omit if your blend already contains it)
- 3/4 teaspoon baking powder
- 1/4 teaspoon kosher salt
- 1/2 cup (100 g) granulated sugar
- 3 tablespoons (22 g) confectioners’ sugar
- 8 tablespoons (112 g) unsalted butter, at room temperature
- 1 egg (50 g, weighed out of shell) at room temperature, beaten
- 1 teaspoon pure vanilla extract
- A few teaspoons of water if dough is too thick

Frosting

- 10 tablespoons (140 g) unsalted butter, at room temperature
- 4 tablespoons milk, at room temperature
- 1 tablespoon pure vanilla extract
- 1/8 teaspoon kosher salt
- 2 teaspoons meringue powder (LorAnn brand is gluten free)
- 4 cups (460 g) confectioners’ sugar
- Sprinkles (optional)

Instructions

1. Preheat your oven to 350°F. Line rimmed baking sheets with unbleached parchment paper and set them aside.
2. In a large bowl, place the flour, xanthan gum, baking powder, salt, granulated sugar and confectioners’ sugar and whisk to combine well. Add the butter, egg, and vanilla, and mix to combine. The dough will be thick and relatively stiff, and you may need to add a little water and squeeze it together with your hands to bring all of it together.
3. Roll the dough between two sheets of unbleached parchment paper into a round a bit less than 1/3-inch thick. Using a 2 1/2-inch round cookie cutter, cut out rounds of dough and place them about 1-inch apart on the prepared baking sheets.
4. Place the baking sheet in the center of the preheated oven and bake until just set, about 6 to 8 minutes, depending upon size. The edges of some of the cookies may brown slightly. Take them out before there is any significant browning. Remove the cookies from the oven and allow them to cool until set. Transfer to a wire rack to cool completely.
5. While the cookies are cooling, make the frosting. In the bowl of your stand mixer fitted with the paddle attachment, place the butter, milk and vanilla, and mix on medium speed until combined. Turn the speed up to high and mix until creamy. Add the salt, meringue powder and about 3 1/2 cups of confectioners’ sugar. Mix slowly until the sugar is incorporated. Turn the mixer up to high and beat until it becomes uniformly thick. Add the rest of the confectioners’ sugar if necessary to thicken the frosting.
6. Once the cookies are completely cool, pipe or spoon a generous amount of frosting onto the top of each, and spread into an even layer with a wide knife or offset spatula. Scatter sprinkles, if desired. Allow to set at room temperature until the frosting hardens a bit. Store any leftovers in an airtight container at room temperature.
